INTRODUCTION

Welcome to the comprehensive directory of Hungarian higher education institutions, a publication designed to introduce the esteemed member institutions of the Hungarian Rectors' Conference (HRC). This directory offers a brief, yet insightful overview of each university and college within our organization. Our aim is to highlight the vast and diverse academic landscape in Hungary, showcasing the numerous opportunities for cooperation and shared values.

Our membership spans various financing models, including state-funded, religious, model-changing and private institutions. Each section reflects the richness and versatility of our educational environment, illustrating our collective commitment to academic excellence, innovation, and societal development.

We invite you to explore the profiles of our member institutions and the extensive academic opportunities and collaborative potential that Hungary has to offer.

HRC

Hungarian Rectors' Conference

Hungarian Higher Education Directory 2026

PRESIDENT'S WELCOME

As President of the Hungarian Rectors' Conference, I am proud to present the 2026 edition of the Hungarian Higher Education Directory. The purpose of our publication is to showcase Hungarian universities and colleges as well as their diversity. The strength of Hungarian higher education is well demonstrated by the fact that it comprises 63 higher education institutions, representing 30,000 lecturers and 320,000 students, including 43,000 international students.

In my capacity as President of the Hungarian Rectors' Conference, my goal is to further increase the international visibility and recognition of our universities and to strengthen the cooperation between institutions. This publication provides an insight into Hungarian university education, whose roots date back to the Middle Ages. For centuries, Hungarian universities and colleges have contributed to the cultivation of the Hungarian language and culture, as well as to maintaining a lively, open, and fruitful relationship with European and global academic trends. We can be proud of this rich past, and at the same time draw strength from it to accomplish the tasks of the present and the future.

By browsing through the directory, you can learn about our academic programs and research initiatives, but it can also serve as a useful resource for exploring partnership opportunities. In addition, this publication helps you get in touch with the outstanding institutions that make Hungary a vibrant center of excellence in higher education.

Sincerely,

Dr. Béla Merkely
President

HRC

THE PRESIDENCY OF HRC

The Presidency of the Hungarian Rectors' Conference consists of a President, a Co-President, Vice Presidents, and Section Presidents, representing state-funded, model-changing, private, and religious institutions. The leadership structure is designed to ensure balanced representation across different funding models, promoting equitable collaboration and strategic decision-making within Hungary's higher education sector.

Dr. Béla Merkely
President
Rector of Semmelweis University

Dr. Levente Kovács
Co-President
Rector of Obuda University

Dr. László Borhy
Honorary President
Former rector of Eötvös Loránd University

Dr. István András

Hungarian Rectors' Conference

HUNGARIAN RECTORS' CONFERENCE

About Us

The Hungarian Rectors' Conference (HRC) is an independent public corporation registered by the court, representing the entire higher education system in Hungary. Governed by its Statutes, the HRC is structured with a four-level system: the Plenary Session, comprising 63 rectors, various specialized committees, a Presidency of 12+3 members, and a supporting Secretariat. As a non-profit entity, HRC's core duty is to provide efficient single-channel domestic and foreign professional representation for Hungarian higher education institutions.

The HRC also represents Hungarian higher education on an international level, with the right to delegate representatives to key organizations like the International Association of Universities (IAU) and the European University Association (EUA). HRC is committed to promoting Hungarian higher education and fostering global partnerships. It plays a key role in organizing events, managing delegations, and coordinating programs for international students.

HRC regularly organizes bilateral conferences and delegation visits to nurture cooperation. In recent years we stablishes strong relations with many partners, such as with Morocco, Egypt, Argentina, Cuba, Colombia, Vietnam, China, Uzbekistan and Kyrgyzstan. The HRC is also committed to building regional and European partnerships, with active participation in European and international organizations such as EUA, EURASHE, EFEE, and IAU.

Cooperation opportunities

INTERNATIONAL PROJECT PARTNERSHIPS

HRC regularly participates in EU funded project and partnerships to widen its's knowledge base and to better the European education area. Our recent projects include cooperations with the European Federation of Education Employers (EFEE) projects.

STUDY PROGRAMMES

HRC has experience in organizing Summer and Winter Shools/Academies, including workshops, accomodation, transportation and cultural programmes.
We can also organize terminology specific and general language preparatory courses (both short and long term) in English or other languages.
Furthermore we have expert knowledge in scholarship program management and coortination of students groups as well.

ACADEMIC COOPERATION

- Bilateral rectors' conferences
- High ranking delegation visits
- Scienctific conferences
- Study tours for academic professionals
- Online networking opportunities
- Cooperation with agents

EÖTVÖS JÓZSEF COLLEGE

EÖTVÖS JÓZSEF FŐISKOLA BAJA

About Us

Expertise, practice, lifelong relationships. These three words truly characterize our institution, which, in response to the challenges of the 21st. More than 155-year-old Eötvös József College offers a bachelor's degree and higher-level vocational training in pedagogical fields and business administration and management. These qualifications allow our students to find highly qualified and value-added working places in several positions in the mentioned areas.

The institution provides foreign students with diverse, methodologically well-structured training programs, practical education, and a friendly atmosphere with well-equipped infrastructure. Professional programs such as visits to plants and institutions are common. We train professionals who, with the modern theoretical and practical knowledge necessary for the organization and management processes that cover corporate and public activities, can engage in self-employment and participate in the work of small and medium-sized enterprises, as in different public institutions.

Based on our traditions, we teach teachers, kindergarten, and nursery educators of the future with modern methods; our German, Croatian, and Gypsy/Roma nationality training are also outstanding rated all in the EU.

Baja is a Mediterranean town with wonderful natural values. The college offers a wide range of recreational opportunities on the riverside of the Danube, in the vicinity of the Gemenc Forest National Park.

EÖTVÖS LORÁND UNIVERSITY

About Us

Eötvös Loránd University (ELTE)—in terms of student and staff number, quality of education and research, and its international relations—is the most prestigious public HEI in Hungary, operating continuously since 1635.

As top-ranked research university in Hungary, it is the most popular HEI among Hungarian applicants as well as alma mater of five Nobel laureates and leading figures in technology, public policy, and culture in Hungary.

Currently, 40,000 students study at nine faculties and an individual institute, with about 5,300 international students from over 100 countries. Wide-ranging student services and active student associations welcome international students in the vibrant city of Budapest.

Through its international relations all over the world (1020 partner universities and 10 strategic alliences and university networks), ELTE is the only HEI representing Hungarian higher education in many regions and alliances. These partnerships offer a large number of possibilities for mobility and international collaborations to students, academic and non-academic staff at ELTE.

ELTE is Hungary's largest scientific establishment with 17 doctoral schools and 128 doctoral programs, covering a wide spectrum of research projects. Research at ELTE means international collaborations, interdisciplinary approaches, modern laboratory infrastructure, and innovation. Our researchers run cutting-edge projects funded by the European Union and the Hungarian Academy of Sciences.

HUNGARIAN UNIVERSITY OF FINE ARTS

1871

About Us

The aim of the Hungarian University of Fine Arts (HUFA) is to provide art education at the highest level. Since its foundation in 1871, it has been cultivating Hungary's living artistic traditions and constantly reflecting contemporary artistic trends. The Diplomas awarded by the Painter, Graphic Arts, Intermedia, Fine Art Theory, Visual Design, Restoration and Sculptor Departments as well as the Doctoral School guarantee excellent theoretical and practical knowledge.

The HUFA exhibition spaces (headed by the Barcsay Hall), library and collection are open to visitors all year round. The Epreskert studio houses, the Feszty House, the Intermedia building, the Labor Gallery in the city centre and the Tihany Art Camp are also an integral part of the university.

LISZT FERENC ACADEMY OF MUSIC (LISZT ACADEMY)

About Us

Founded in 1875, the Liszt Ferenc Academy of Music (Liszt Academy) is the only institution bearing the name of Ferenc Liszt that was established with the personal participation of the master. It is an acclaimed international university of musical arts, among the bests in the world according to renowned rankings, as well as a famous and exceptional concert venue. Acknowledged by the European Heritage Label, it brings the traditions to the fore whilst holding true to the artistic spirit of Ferenc Liszt: the openness and creativity, as well as a Hungarian and European character at once.

It is the custodian of the ”Hungarian school”, whether that be the significance of chamber music, the passionate perfectionism so typical of teachers of the arts, or the legacy of the Kodály method defining the foundations of music education.
The Grand Hall of the Academy’s Art Nouveau main building dating from 1907 boasts unparalleled acoustics, and as the complete reconstruction was finished in 2013, the university has set up a professional concert organizing department and founded two world-renowned international competitions: the Éva Marton International Singing Competition and the Bartók World Competition.

Academic information

TYPES OF TRAINING

BA, MA, preparatory (non-degree) courses, postgraduate courses, DLA, PhD

OUTSTANDING COURSES

Classical music performance education, music pedagogy development on national and international level, musicology researches, church music researches

FACULTIES, INSTITUTES, DOCTORATE SCHOOLS

Doctoral School (music), Liszt Memorial Museum and Research Centre, Kodály Institute and Museum

> The Liszt Ferenc Academy of Music has made significant progress in the QS rankings by subject: with its 22nd place in the performing arts category, it is the world's highest-ranked Hungarian university.

Ranking of the Institution

Year of **1875** foundation

Number of **874** students

Number of **147** international students

Academic life

The internationally renowned Liszt Academy offers top quality education to its students with one-to-one classes and personal curriculum. Chamber music and orchestra playing are also essential part of the professional development as well as the wide range of masterclasses held by internationally recognized artists from all over the world.

LUDOVIKA UNIVERSITY OF PUBLIC SERVICE

About Us

The Ludovika University of Public Service (LUPS) – founded in 2011 – is the flagship educational institution of Hungarian public service, with a mission that has been part of a long-standing tradition in Hungary.

With its academic portfolio, LUPS is an important regional knowledge centre for public administration, diplomacy, security and defence, military, law enforcement, water management, and many other social and economic fields related to the public sector.

With its five faculties, the Faculty of Public Governance and International Studies, István Nemeskürty Faculty of Teacher Training, the Faculty of Military Sciences and Officer Training, the Faculty of Law Enforcement, and the Faculty of Water Sciences, LUPS educates specialists for public education, domestic and international public administration, the National Defence Forces and the defence sphere, law enforcement agencies, as well as water specialists. The mission of the University is to train students interested in and committed to public service so as to become successful professionals with the knowledge acquired during their studies.

APOR VILMOS CATHOLIC COLLEGE

Apor Vilmos Katolikus Főiskola
Tudás. Hit. Jövő.

About Us

Apor Vilmos Catholic College offers training programs in Hungarian and English on two campuses located in Vác and in Budapest. In Vác BA, MA and postgraduate courses are offered. Training fields encompass BA programmes in teacher education, social science, religious studies and MA programmes in educational science and social pedagogy, mental health and community development.

The 2-year Educational Science MA programme prepares students for educational research and governance in public and higher education and education management. The Social Pedagogy MA programme targets at the imporvement of the circumstances of disadvantaged children and youth and their families.

- Department of Pedagogy,
- Department of Mathematics, Natural Sciences and Informatics

Year of **1929** foundation

Number of **1 557** students

Number of **15** international students

Academic life

Besides the up-to-date theroretical knowledge, the BA programmes of Infant and Early Childhood Education, Pre- and Primary School Teacher Training and Social Pedagogy provide practice-oriented training to prepare students for their prospective vocation and for the requirements of the labour market.

The Expert in Mental Health and Communitiy Development MA programme is aimed to train professionals who will develop and lead supportive and protective communities in the different fields of society.

Religious studies programs (Chorister and Catechist-Pastoral Assistance) deepen the students' vocational commitment by the transmission of solid professional knowledge and Christian values.

Currently, Apor is involved in two research projects: "Cognitive coaching for needs-based pedagogies in teacher training" with Austrian, Romanian and Finnish partners, funded by Erasmus+; and "Preventing learning failure by changing the learning environment at the beginning of academic career", funded by the Hungarian Academy of Sciences. Other research activities are related to social integration, Roma studies, spatial pedagogy, and atypical development.

ARCHIEPISCOPAL COLLEGE OF VESZPRÉM

About Us

The Archiepiscopal College of Veszprém is authorized to launch programmes in the fields of religious life, teacher training, humanities, economics and social sciences. Since September 2020, the Theology programme has been deactivated. Currently, the College offers the Teacher of Religious Education undivided MA and the Social Work BA and MA programmes. The Infant and Early Childhood Education BA programme started in the 1st semester of the 2024/2025 academic year (the Catechetics BA programme has been temporarily suspended).

Based on the cooperation agreement between our College and the University of Pannonia located in Veszprém, the Teacher of Religious Education programme is not just a single degree training but can be combined with other teacher training programmes as well.

We place great emphasis on organizing further training programmes for Christian and worldly intellectuals, for professional graduates of pedagogy, social studies or for those from the fields of other social sciences and humanities.

In order for our College to act as a catalyst in the Archdiocese of Veszprém, it should step out into society by expanding the range of its – educational and scientific – activities with a service profile.

For this purpose, the Pastoral Institute, the Mental Health Centre, and the Talent Nurture Centre were founded, all of which became operational in the autumn of 2022.

Academic information

BHAKTIVEDANTA COLLEGE

About Us

Bhaktivedanta College, based in Budapest, specialises in the academic study of Indian intellectual, philosophical, and religious traditions, with particular focus on Vaishnava theology and yoga. Founded in 2004, the College has developed into a recognised European centre for tradition-informed scholarship grounded in close engagement with classical sources, especially Sanskrit texts and their commentarial heritage. Its academic profile combines textual study, historical inquiry, and contemporary perspectives from theology and religious studies within a focused and personalised learning environment.

Academic information

TYPES OF TRAINING

- BA, MA (Hungarian)
- Semester-based English-taught courses (Spring & Autumn)
- Erasmus+ mobility programmes

OUTSTANDING COURSES

- Vaishnava Theology (BA, MA)
- Yoga Studies (BA, MA)
- Sanskrit and Textual Studies
- Indian Philosophy and Religious Traditions
- Bhakti Theology and Scriptural Exegesis
- Yoga in Historical and Philosophical Context
- Faculties: Department of Vaishnava Theology, Department of Applied Yoga Sciences

Year of **1998** foundation

Number of **239** students

Number of **8** international students

Academic life

Academic life at Bhaktivedanta College is shaped by dialogue, research, and sustained engagement with classical sources. Conferences, guest lectures, interfaith discussions, and scholarly events connect students with Hungarian and international academic communities. The College Library holds a specialised multilingual collection in Hungarian, English, Sanskrit, and Bengali, with a strong focus on Vaishnava theology, Indology, yoga studies, and related fields. Teaching is supported by close textual study and supervised research work, encouraging analytical precision and methodological awareness. Academic activities are complemented by thematic workshops and scholarly collaborations that strengthen the College's integration into wider European and international academic networks.

INTERNATIONAL OPPORTUNITIES

Bhaktivedanta College participates in Erasmus+ mobility programmes and maintains academic partnerships across Europe, including Italy, Slovenia, and Finland, as well as cooperation with institutions in India, Bhutan and Nepal. These partnerships support student and staff mobility, academic exchange, and collaborative initiatives aligned with the College's specialised academic profile.

Besides our educational programmes, we also provide opportunity to our students for self-education, religious exchange of views, and collective relaxation. The Bhaktivedanta Library's unique collection includes books on Vaishnava theology, Hinduism, and Indian culture, and home to the Indologist Ildiko Puskas's literary inheritance.

BAPTIST THEOLOGICAL SEMINARY

1906

About Us

The Baptist theological education began in 1906 with the founding of the Baptist Theological Seminary, the legal predecessor of the Baptist Theological Academy. There are two undergraduate courses (BA in Theology and BA in Cantor) and, since 2010, a master's degree (MA in Theology) and specialist training (Christian education, religious studies). The institute admits members of any Christian denomination.

BTA is an autonomous academic institution, dedicated to theological education rooted in evangelical and conservative principles. It blends Hungarian Baptist traditions with pedagogical methods from German and North American theological institutions. Historically focused on training Baptist pastors, the Academy has expanded since the 1990s to welcome students of all denominations, offering degrees in Theology (BA, MA) and Cantorship (BA). The faculty combines scholarly expertise with deep faith and missionary experience, emphasizing practical training and adapting to contemporary challenges. The Academy fosters strong connections with both Hungarian and international theological institutions.

Academic information

BRENNER JÁNOS THEOLOGICAL COLLEGE

About Us

The Brenner János Theological College belongs to the higher education institutions of the Hungarian Catholic Church. It is a state accredited institution.

The Seminary, founded in 1627 as a successor of the Episcopal School dating from the 13th century, became a Theological College in 1732. The institution has been operating with intermittent shorter and longer interruptions since then.

The College aims to provide religious education, widen the teaching and research activities of the discipline, educate in terms of art and culture, as well as, prepare students for the life of a Christian intellectual.

Nowadays the College provides the same trainings in Győr and also in Szombathely as a second training location.

Academic information

TYPES OF TRAINING

BA, MA, Undivided one-tier master's program, Postgraduate training

OUTSTANDING COURSES

- Catechesis - pastoral associate
- Catholic theologian
- Roman Catholic cantor
- Teacher of theology
- Two/four-semester teacher-education
- Postgraduate specialization programmes:
  - Religious tourism expert
  - Religion teacher tutor
- In-service training for teachers:
  - Christian values in public education

- Students' Dormitories

Year of **1627** foundation

Number of **115** students

Number of **9** international students

Academic life

We strive to develop students' personal relationships and community experience, and to maintain a family atmosphere in the student-teacher relationship alongside their studies. Our College is committed to supporting the professional careers of our students, and to this end we are in constant organisational contact with their employers, dioceses, parishes and Catholic schools and kindergartens. Their feedback is important to us because it is on this feedback that we build the culture of continuous improvement that we expect from all our staff.

Our College, building on the interactive technology of the modern age, but retaining the personal learning experience, provides the ideal educational environment and services for its students and staff.

OUR MISSION

„Ut coelo assurgant!"

Following our mission statement, which means: "To grow to the sky!", the College, strengthened in service, faith and knowledge, helps the modern man to live the Catholic faith in community. Our goal is to build on the faith experience of students and to develop a sense of faith through college studies that will be reflected in their personal life journey. Achieve personal happiness in their personal lives (family, social role, nation) and in the parish.

DEBRECEN REFORMED THEOLOGICAL UNIVERSITY

About Us

The Debrecen Reformed Theological University (DRTU) as a member institute of the Debrecen Reformed College (founded in 1538) has been one of the influential centres of theological sciences and ecclesiastic training of intellectuals in Hungary.

Debrecen turned the ecclesiastic centre of the Tiszántúl (the region east of the river Tisza) which became protestant by the middle of the 16th century. At the time minister and teacher training in the region was carried out by the school of the city of Debrecen.

Thanks to its professors with experience from Western European universities, and an extended school network in the country and the protection, the rich support from the city of Debrecen and from the princes of Transylvania the Reformed College of Debrecen soon became an institution of national importance. Known as the school of the poor, it provided education for the lower layers of the society and supported their social advance. Besides notable scientists and science organizers, several poets, writers and philosophers well known in Hungarian cultural history are among the alumni of the College.

The DRTU currently has two institutes and seventeen departments. Our university apart from its undivided, basic (BA), master (MA) and PhD programmes carries out the training of would-be Reformed ministers and church employees, teachers and other secular intellectuals. The institute currently has 50 full time teachers and around 600 students.

Academic information

DHARMA GATE BUDDHIST COLLEGE

About Us

The Dharma Gate Buddhist College is a religious institution of higher education founded by the Dharma Gate Buddhist Church. The College has been offering courses on Buddhist teachings since September, 1991.

The teaching staff consists of Dharma teachers of the communities of the Church as well as teachers with qualifications in the fields of philosophy, oriental studies, etc.

The College offers a Buddhist Teacher (Theologist) degree. With the introduction of the Bologna process in 2005, the College applied for the accreditation of its 3-year BA course and its 2-year MA course. Degree holders can work as social workers, religious teachers or martial arts teachers, or may decide to enter the monastic life.

The aim of the institute is to make Buddhist texts and knowledge available for everyone. To reach this goal, teachers of Dharma Gate Buddhist College are well-prepared in the fields of comparative philosophy, religions and eastern or ind languages, and often motivated to translate religious Buddhist texts.

Hence the institute keens for partnerships with other, mainly asian institutes in order to improve methods of teaching Buddhism.

In this respect, Dharma Gate Buddhist College has a blooming partnership with Mahachulalongkornrajavidyalaya University, Thailand.

Academic information

ESZTERHÁZY KÁROLY CATHOLIC UNIVERSITY

EGER 1774

ESZTERHÁZY KÁROLY CATHOLIC UNIVERSITY

About Us

Eszterházy Károly Catholic University, founded in 1774, is a leading and dynamically developing institution of higher education in Eger and Jászberény. The main profile of the institution - based on its decades-long tradition - is teacher training. The name of the university is attached to the Complex Basic Programme, which is meant to implement the methodological renewal of public education in Hungary, as well as the implementation of the highly practice-oriented Eszterházy Pedagogical Training Model.

The institution with nearly 8000 students and 400 academic staff members is tied to its traditions, cherishes its heritage and pays attention to social processes. Internationally recognized knowledge centres and research groups operate at the university where our researchers conduct applied research with the involvement of economic actors in the region and the support of domestic and international projects. Internationally recognized research in the field of viticulture and winemaking effectively serves sustainable farming in the entire Carpathian basin. As the only domestic higher education institution, the university participates in the 9-year LIFE integrated project of the Ministry of Energy, the aim of which is to support the implementation of the National Energy and Climate Plan. The Coal Commission Secretariate, responsible for coordination and attitude formation, operates in the institution.

EPISCOPAL THEOLOGICAL COLLEGE OF PÉCS

PÉCSI PÜSPÖKI HITTUDOMÁNYI FŐISKOLA
17 42

About Us

The Episcopal Theological College of Pécs is a Church maintained university college with the same recognition as any other state-maintained universities. We offer BA and MA degree programs in Roman Catholic Theology, Religious Education, Pastoral Assistance, and Charity Studies.

Our mission embraces both teaching and research. On the one hand, as the only church-maintained higher education institution in South-West Hungary, we train professionals primarily for the institutions of the Roman Catholic Diocese of Pécs – including schools (from pre-primary to secondary level), charity and social institutions (e.g. homes for the elderly, homeless shelter, Caritas), pastoral and cultural institutions –, but also for the Hungarian and the global Church. On the other hand, our college provides academic support for the professional and institutional development of the diocese and contributes to the development of catholic academic thinking.

Hence, at the centre of our mission are the concrete needs of our region, including the dimensions of religion, socialcare, education, healthcare and culture. We aim to interpret and convey the Church's threefold responsibility – worship (leiturgia), witness (martyria) and service (diakonia) – through the lenses of the challenges and potentials of the concrete situation.

Academic information

TYPES OF TRAINING

BA, MA

OUTSTANDING COURSES

Roman Catholic theology, training of chatechists, training of pastoral and social workers

HUNGARIAN ADVENTIST THEOLOGICAL COLLEGE

About Us

Our college was established by our predecessors with the undisguised intention (1948) of creating a biblical teacher-educator base dedicated to the work of God for Adventist pastoral training and, as it was called at the time, preaching training.

Our Alma Mater has come a long way in the last seventy years and, while striving to faithfully nurture the spiritual legacy of the Founders, it also strives to meet new challenges and expectations. This is partly due to the fact that our current training palette already goes far beyond the original objectives, and contrary to entrenched stereotypes, it is far from just pastoral training.

We operate at the college-level BA in Theology and at the university-level MA in Theology in a form supported by the Hungarian Accreditation Committee and recognized by the state.

JOHN WESLEY THEOLOGICAL COLLEGE

About Us

The John Wesley Theological College was accredited in Budapest, Hungary, European Union (since 2004) as a higher educational institution in 1991 right after the collapse of the Communist System.

The College has been managed by the Hungarian Evangelical Fellowship (HEF or MET: Magyarországi Evangéliumi Testvérközösség in Hungarian). It was named after John Wesley, an English cleric, theologian and evangelist who was a leader of a revival movement within the Church of England known as Methodism.

The Mission Statement of the Wesley does not expect or require alignment of faith from students or professors in any of its programmes or departments including the theological department. Our mission statement represents the original mission of John Wesley: “Do all the good you can, by all the means you can, in all the ways you can, in all the places you can, at all the times you can, to all the people you can, as long as ever you can.”

Currently Wesley provides a unique, friendly environment for students and professors who intend to participate in the daily reality of social work, pedagogy and environmental protection, close to the citizens and communities.

JEWISH THEOLOGICAL SEMINARY - UNIVERSITY OF JEWISH STUDIES

1877 | תרל"ח

About Us

The Jewish Theological Seminary – University of Jewish Studies, Hungary (JTS–UJSH, or OR–ZSE) is a dynamically prospering small university under the auspices of the Federation of Hungarian Jewish Communities (Mazsihisz). Opened in 1877 as the rabbinical seminary (Landesrabbinerschule, or Jewish Theological Seminary) of the neolog (positive-historical) movement in Hungary, it is among the oldest institutions in the world training non-orthodox rabbis and cantors. It has gradually broadened its profile since the 1990s, and it was awarded a university status in 2000.

Now, it offers rabbinical and cantor training programmes, Jewish studies, social work, community building, and it also hosts a doctoral school.

Academic information

KÁROLI GÁSPÁR UNIVERSITY OF THE REFORMED CHURCH IN HUNGARY

About Us

Károli Gáspár University of the Reformed Church in Hungary is a dynamic institution rooted in the centuries-old traditions of Reformed education. Alongside preserving its Christian heritage, our university is committed to academic excellence and innovation.

With approximately 10,000 students across five faculties, we offer a broad portfolio of programmes in fields such as humanities, psychology, law, economics, international relations, health and social sciences, pedagogy, and theology. Our university also provides different study opportunities in English and German. We actively engage with the European academic and cultural community while building international partnerships worldwide, creating opportunities for both students and staff to participate in a global academic environment.

As a Christian university, we are dedicated to upholding strong moral and ethical standards in 21st-century higher education. Our aim is to shape thoughtful and socially responsible professionals who combine academic excellence with integrity and a commitment to serving others.

LUTHERAN THEOLOGICAL UNIVERSITY

Lutheran Theological University
1557

About Us

The Lutheran Theological University is an institution belonging to the Evangelical Lutheran Church in Hungary. Besides being committed Lutherans we lay particular stress on ecumenical openness. The university is of course part of the Hungarian higher education system working in agreement with the state requirements which guarantee high intellectual, professional and quality standards. The financial background is ensured by state and church sources.

Our primary task is to prepare divinity and Christian education graduates for their future service. It is of not less importance to perform continuous research and scholarly activity. Accordingly, doctoral and postgraduate trainings are also part of our profile.

We provide accommodation for our students – and in a limited number for students of other Budapest universities – in the hall of residence right next to the university, where various sports and leisure facilities are also available.

We are glad to have international students for long or short-term scholarships. Likewise, we are glad to see our students getting involved in the international theological circulation as both broaden our network of contacts.

These meetings and the professional contacts and friendships forming between international and Hungarian students during the Budapest university years proved to be precious and helpful in the future careers of our alumni.

MILTON FRIEDMAN UNIVERSITY

About Us

Milton Friedman University is one of Hungary's most dynamically developing institutions of higher education, recognized for its achievements in applied science education and research.

A key driver of our success is our commitment to keeping our academic portfolio aligned with the evolving demands of the global job market. Each year, MILTON's course offerings are carefully reviewed and updated to reflect emerging trends and professional expectations. As a result, our students gain relevant, future-oriented knowledge and practical skills that employers highly value. Our teaching approach offers a strong foundation for lifelong learning, empowering graduates to succeed professionally and excel in all aspects of life. Our strong focus on practical training further enhances the value of a MILTON degree. By integrating hands-on experience with rigorous theoretical instruction, we ensure that our students graduate with immediately applicable skills and a confident, competitive edge in the workforce.

We believe that academic success goes hand in hand with personal well-being. That's why we are dedicated to creating a supportive environment where students can balance their studies, work, and personal lives with confidence. Our continuously evolving campus, the close collaboration between university leadership and student organizations, and our strong commitment to supporting working students all reflect this core philosophy.

Research

At any given time, Milton Friedman University supports a wide variety of research interests. Each center and research group provides the necessary infrastructure to advance our understanding of the world and disseminate new knowledge for the benefit of society.

These centers and groups operate as single or multidisciplinary units established to conduct research and creative work, deliver educational activities, and contribute through leadership and service. While they are usually organized around the study of a particular theme, issue, project, or policy area, many also engage in interdisciplinary collaborations spanning multiple academic fields.

PÁPA REFORMED THEOLOGICAL SEMINARY

PÁPAI REFORMÁTUS TEOLÓGIAI AKADÉMIA

About Us

Pápa Reformed Theological Seminary is part of the Reformed Church of Hungary and is one of the major tertiary institutions where students for the Reformed Church of Hungary are trained. It is an accredited institution with its own Erasmus+ Charter.

In accordance with the Bologna Credit System the seminary offers Short-cycle tertiary education degrees, a BA degree and MA degrees. It is co-operating with other higher educational faculties, cultural associations, with other Hungarian and foreign theological universities. Due to the historical nature of the seminary its first responsibility is to train ministers and teachers of religion for the Transdanubian Diocese.

It upholds the values of the Reformation and supports its ecumenical spiritual, educational and, cultural heritage as the intellectual centre of the Diocese.

Its highly trained staff of lecturers and researchers encourage training and research in an open ecumenical environment, aided by extensive collections of books and modern equipment. As part of the quality assurance of the Seminary it is equally important to provide support and supervision of the academic advancement of the students and to aid their spiritual and personal growth. We are committed to continuously supervise, evaluate and – if necessary – modify the components of our courses and curriculum according to the demands of our internal and external partners.

PÁZMÁNY PÉTER CATHOLIC UNIVERSITY

PÁZMÁNY
Pázmány Péter Catholic University
1635

About Us

Pázmány Péter Catholic University (PPKE) is an accredited, state-recognized higher education institution in Budapest, Hungary, run by the Catholic Church and governed by the Hungarian Catholic Bishops' Conference.

The foundation of our institution in Nagyszombat in 1635 and its re-foundation in 1992 are the cornerstones of Hungary's oldest continuously operating university. With its diverse training system, PPKE serves both the transmission of traditional knowledge and values necessary for the development of the entire human personality, as well as the formation of the information society and its adaptation to human fulfillment.

The spirit of our university is fundamentally determined by its Catholic affiliation and the resulting human and community values. Respect for each other, building a professional and friendly community across generations, as well as paying attention to each other and helping each other are of fundamental importance to us. Knowledge is transferred in a people-oriented environment, always taking into account the capabilities, skills and needs of our students. We pay particular attention to the importance of high-quality science and education. These universally recognized values ensure, that the degrees awarded retain their value and contribute to the favorable reception of Pázmány's graduates in the labor market.

Academic life

Founded in 1635, our university combines centuries-old tradition with modern innovation. As one of Hungary's oldest institutions, we offer a wide range of study programmes from archaeology to info-bionics engineering, providing students with both strong academic foundations and forward-looking knowledge. Located in the heart of Budapest, our downtown campuses create an inspiring environment for learning and discovery. Grounded in Catholic values, the university welcomes students from all backgrounds and fosters a respectful, collaborative academic community. Our programmes equip graduates with globally competitive knowledge and practical skills, preparing them for international careers and further studies worldwide. Students are supported throughout their journey in a nurturing environment that encourages personal and professional growth. Through exchange programs and global partnerships, we prepare our students to thrive in an interconnected world.

PENTECOSTAL THEOLOGICAL COLLEGE

About Us

The Pentecostal Theological College (PTC) was established in 1991 by the Evangelical Pentecostal Community to educate and train young people in a Pentecostal environment. Originally based in Kadarkút, it moved to Budapest in 1992, and in 1997, it relocated to a renovated building housing all its facilities.

In the new millennium, PTC emphasized practical service and academic excellence, integrating mission work into its curriculum. In 2003, it introduced a flexible credit-based system, and in 2006, adapted to EU higher education strategies, making the program more practice-oriented with a three-year academic course followed by a full-time service component.

PTC launched an MA in Theology in 2012, supported by an expanded faculty and a new research institute. The institution's MAB (Hungarian Accreditation Committee) accreditation was renewed in 2024, and in 2025 started BA in social work. PTC adopted a hybrid education model, blending online and classroom learning, ensuring modern, flexible theological education. This approach, combined with its rigorous academic standards, positions PTC as a leader in Pentecostal theological education.

REFORMED THEOLOGICAL UNIVERSITY OF SÁROSPATAK

SÁROSPATAKI REFORMÁTUS HITTUDOMÁNYI EGYETEM • 1531 •

About Us

The Reformed Theological University of Sárospatak is a higher education institution of the Reformed Church of Hungary. It is an independent legal body maintained by the Tiszáninnen Reformed Church District.

As an academic institution of the Reformed College of Sárospatak (founded in 1531), it has trained ministers for centuries. Despite the protest of the Tiszáninnen Synod, its functioning was ceased by administrative decree in 1951. After a forty-year forced intermission, the Church District restarted the Theological Academy in 1991. This was acknowledged by the Government Decree 1991:1059 of the Hungarian Republic.

According to the amendment of the Higher Education Act (12 December 2023), our institution, as a non-state university of applied sciences, continues its work as the Sárospatak Reformed Theological University from 1 February 2024.

The University preserves and carries on an intellectual and spiritual legacy that was developed in specific circumstances and which is built on centuries-old creeds and on a commitment to the Hungarian nation.

The purpose of the University is to train Reformed ministers and, according to the needs of the Reformed Church of Hungary, to train teachers of religious education, community organizers, social workers, and to conduct research in theology on a high standard. Given its historic legacy, it bears a responsibility not only to the Tiszáninnen Church District but also to the Hungarian Reformed Churches of the Carpathian Basin.

SAPIENTIA COLLEGE OF THEOLOGY OF RELIGIOUS ORDERS

SAPIENTIA

About Us

The Sapientia College of Theology of Religious Orders is an integrated institute of several religious orders. Its aim is to be the center of theological studies for religious orders in Hungary. The main purpose of the College is to provide high quality theological training

- based on Catholic faith and moral,
- in observance of church and state law,
- feeding on the spirituality of orders teaching in the College as well as to give a platform for research on the theology of religious life.

In the year 2000, the three religious orders now responsible for the College, the Hungarian Benedictine Congregation, the Hungarian Piarist Province and the Franciscan Province of Our Lady of Hungary, united their centuries-old theological colleges under the name 'Sapientia College of Theology of Religious Orders'.

Theological training in the College prepares religious candidates for the priesthood and provides theological, catechetic, and pastoral-assistant training for religious brothers and sisters. In addition, the College is also committed to train lay people who wish to serve the church and the society.

The College strives for further cooperation with other institutions: with religious orders, colleges of theology and with institutions of higher education, primarily of teacher training.
The College aims at continually improving its activities, in line with church demands and the higher education quality assurance principles.

SOLA SCRIPTURA COLLEGE OF THEOLOGY

sola Scriptura

About Us

The college regards the maintenance and further development of the Biblical spirit of the 'sola Scriptura' ('by Scripture alone') as its academic task.

The academic purpose of the full-time and part-time Theology BA course, as well as the postgraduate specialized training course is: theological education – irrespective of denominational affiliation and without denominational nature – for all who wish to acquire higher education in theology based on the principle of 'sola Scriptura'.

In the Bible's research, the college considers it important to have scientific precision and sophistication, and to use linguistic and historical auxiliary sciences for this purpose.

However, the ultimate goal and essence is considered to be the exploration and teaching of the thought contents of the Scriptures on the basis of correct explanatory principles.

Academic information

TYPES OF TRAINING

BA, Postgraduate Specialised Training

OUTSTANDING COURSES

- Theology BA course
- Biblical counseling postgraduate specialized training course

Year of **1992** foundation

Number of **243** students

Number of **14** international students

Our College is unique among the theological colleges of Hungary. Its name – Sola Scriptura College of Theology – refers to its mission, namely the researching, developing and teaching of Biblical theology. The scriptures of the Bible in themselves make a vast amount of literature, and the biblical history is attached to the secular history of mankind by several links, so we shall find ourselves with a considerable bulk of study material. By way of its relation to universal cultural history, one of its aspects being the Bible as appears in arts.

The Bible is universally recognised and professed as the primary source of Christianity. Since education at our College has this collection of writings in its focus, it is not denominational. The correspondence course is open, irrespective of religious or denominational affiliation, to everyone who wishes to pursue biblical studies at an advanced level. Respecting of liberty of conscience is a basic principle at our College.

ST ATHANASIUS GREEK CATHOLIC THEOLOGICAL INSTITUTE

About Us

St Athanasius Greek Catholic Theological Institute is the higher education institution of the Hungarian Greek Catholic Church. It is maintained by the Metropolitan Church sui iuris of Hungary's Byzantine-rite Catholics (the Greek Catholic Metropolitanate).

Through its programmes offered within the field of religious training, the institution performs the following educational activities:

- training Byzantine-rite Catholic priests and cantors for Hungarian Greek Catholic communities in Hungary and in the neighbouring countries
- training Byzantine- and Latin-rite catechists and theologians for Hungarian Greek Catholic communities in Hungary and in the neighbouring countries
- organising in-service training programmes for priests, catechists, cantors and educators
- conducting licentiate courses in Eastern Theology for priests and lay scholars as an aggregated institution of the Pontifical Oriental Institute (Pontificio Istituto Orientale).

Year of **1950** foundation

Number of **400+** students

Number of **16** international students

Academic information

TYPES OF TRAINING

BA, MA, Postgraduate specialist training course

OUTSTANDING COURSES

- Single degree programme
- Theology degree course
- Theological teacher-educator specialisation
- Church Congregation Organization

SAINT PAUL ACADEMY

SPA

About Us

Saint Paul Academy is the religious college of Faith Church Hungary. The purpose of its operation is to know and understand the wisdom and the teachings of the entire Scripture, and to inspire Biblical spirituality, lifestyle, morals, furthermore, the realization of the law of faith in practice. The institution's education and research is aimed at renewing Christian culture and educating Christian intellectuals to create a biblical theological higher education of scholarly quality that interprets the values of the Bible (by each fields of study), which is the foundation of European culture.

The training, with their up-to-date and comprehensive knowledge of Scripture and pastoral work, and active participation in church life, prepares graduates to fulfill their Church ministry with full competence and become leaders in local ministry communities. In addition, the purpose of intellectual training at the institution is to equip students for advanced education in theology so that graduates, with the knowledge they have acquired, will be able to continue their doctoral studies.

- Performance-based Scholarships: bursarship, national higher education scholarship
- Professional-community Scholarship; Social Scholarships: Regular social scholarship, Extraordinary social scholarship, the institutional part of the Bursa Hungarica Higher Education Municipal Scholarship
- Basic supports

Year of **1990** foundation

Number of **522** students

Number of **62** international students

Academic life

In addition to / after theology, the following disciplines are pursued in the liberal arts (in order of magnitude): philosophy and religion, history, linguistics and literature, psychology, furthermore research of state and legal studies in the field of social sciences. More than a hundred research topics are underway in the three fields of science. Of utmost importance (as a research related to the training) is the incorporation of Bible translation and its findings into teaching and curricula, and the re-channeling of educational results into further research.

The main mission of our institution's scientific journal, Studia Biblica-Biblical Studies, is for its authors to enhance Christian theology using a scientific method and to examine the various human, social and natural sciences in the light of biblical revelation. The journal includes studies, sources and reviews on philological, exegetical, historical, ethical, philosophical, or natural science issues about the entire Old and New Testament Scriptures.

The new Bible translation of the St. Paul Academy is published in the journal, with an introductory study and commentaries. Our institution has the most international connections with North American Christian higher education institutions and, of course, with those on the European continent, but through one of our teacher's missionary activities, we maintain a relationship with a number of Asian and African churches focusing primarily for student mobility.

THEOLOGICAL COLLEGE OF EGER

About Us

A higher education institution maintained by a church. The organisation of the college in Eger was started by Bishop István Telekessy in 1700. Education began in 1704, but the institute's charter was not issued until 1709 by Bishop Telekessy. The building took its present form in the second half of the 18th century. The Baroque chapel was painted in 1825. Until 1951, only students from the diocese of Eger studied here, but now priests from the dioceses of Debrecen-Nyíregyháza and Vác are also trained here.

The Institute currently offers three types of training. The full-time course is an undivided theology and clergy course (6 years). In accordance with the Bologna Process, the training of theology teachers is divided into two cycles. After completing the basic course in catechetics-pastoral associate (BA, 6 semesters), the training of pastoral care teachers (MA, 5 semesters) is carried out in cooperation with Eszterházy Károly College.

The college includes the St. John's Centre for Continuing Education, which is located in the new wing of the college. It is an adult education institution of the Diocese of Eger. It organises spiritual exercises and courses for the faithful of the world to deepen their faith.

Number of **8** international students

Library and cultural heritage

The college's library consists of around 45,000 volumes, mainly of historical, philosophical and theological material. It is for the internal, domestic use of the college's teachers and students only.

An event in the cultural history of the college: in February 1844, Sándor Petőfi was a guest of the Institute of Priestly Education for a few days. In February 1841, Petőfi wrote his poem "Egri hangok" (The Voices of Eger) among the small clergy.

THEOLOGICAL COLLEGE OF ESZTERGOM

About Us

The founding of the Theological College of Esztergom can be traced back to the post-Tridentine era, following the Council of Trent (1545-1563), which mandated the improvement of priestly education through the establishment of seminaries. In 1566, Archbishop Miklós Oláh of Esztergom founded a seminary in Nagyszombat (present-day Trnava), where priestly training began in 1567. Over the centuries, the seminary underwent various transformations and relocations, including its eventual move to Esztergom in 1865. The college's modern iteration, as recognized in Hungarian higher education law, became an autonomous ecclesiastical institution in 2012, focusing solely on theological education for seminarians. The college is part of the Archdiocese of Esztergom-Budapest and operates within the historical building known as the "Nagyszeminárium," now part of the Saint Adalbert Center.

Number of **3** international students

Academic life

Our higher education institution offers Catholic theological education. Our institution and our community are part of the worldwide mission of the Catholic Church to proclaim the Good News of Jesus Christ throughout the world. A specific segment of this mission is to reveal to theology and catechetical-pastoral associate students at a high level the wondrous mysteries of God and the specific nature of the Church.

"I invite all our visitors to get to know us with an open heart and look into our lives through this wide open door!
And we, the teachers, students and staff of the institution, embrace the words of the Second Vatican Council: 'May the child of the Church feel a great responsibility towards the world, cultivate in himself a true Catholic sentiment and put his strength at the service of the spread of the Gospel. But the first and most important task of propagation is that each one of us should live a profound Christian life." (AG 36.)"

BUDAPEST UNIVERSITY OF ECONOMICS AND BUSINESS

18 57
BGE

About Us

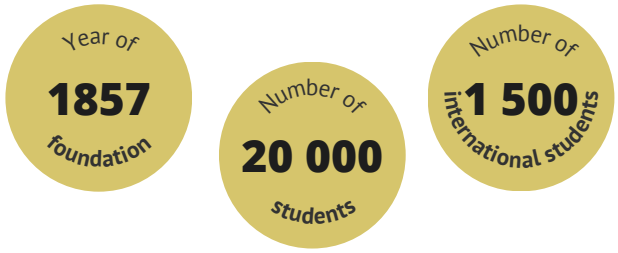

Budapest University of Economics and Business (BGE) is Hungary's biggest university in economics and business, with nearly 20,000 students from around the world. As the fourth largest university in Hungary and the market leader in undergraduate economics education, BGE combines a long tradition of excellence with a modern, practice-oriented approach.

Our programmes provide strong theoretical foundations alongside real-world skills. Students can choose from a wide range of Bachelor's, Master's and PhD programmes delivered in English, preparing them for international careers.

BGE's global academic network is a defining strength: we partner with more than 250 universities across over 40 countries, supporting mobility, joint research and international collaboration.

We also maintain nearly 100 strategic corporate partnerships and work with more than 1,000 professional collaborators. These relationships ensure industry relevance, practical experience and direct labour-market engagement throughout our programmes.

Life at BGE goes beyond the classroom, offering a dynamic student community, strong professional networks and lifelong connections.

Academic information

TYPES OF TRAINING

BA/BSc, MA/MSc, PhD

OUTSTANDING COURSES

Business mentoring, short courses in all fields of business and economics during our intensive weeks, talent development

FACULTIES, INSTITUTES, DOCTORATE SCHOOLS

4 faculties at 2 campuses:

- the Faculty of International Business and the Faculty of Marketing and Business Communication in the City campus
- the Faculty of Finance and Accounting and the Faculty of Management in the Zugló campus

Ranking of the Institution

BGE was the first university in Hungary recognised as a PRME Champion, selected by the United Nations-supported Principles for Responsible Management Education initiative for its leadership in integrating sustainability, ethics and responsible management into business education.

Our university is also featured in notable international sustainability rankings. It has been included for the 2nd time in the Times Higher Education Impact Rankings, which evaluates universities based on their contributions to the United Nations' Sustainable Development Goals. BGE's participation demonstrates its broad commitment to sustainability activities and positive societal impact. In addition, the University appears in respected global lists such as the UI GreenMetric World University Rankings and the AASHE STARS Ranking, underscoring its dedication to environmental responsibility and sustainable campus practices.

Academic life

BGE is an active member of the international scientific community, continuously strengthening its research profile and global academic presence. Our Doctoral School of Entrepreneurship and Business is unique in Hungary, as it is the only doctoral programme dedicated specifically to Entrepreneurship, and it holds EDAMBA accreditation, reflecting its compliance with high international standards in doctoral education and research quality.

Several of our Bachelor's and Master's programmes are offered in cooperation with international double degree partners, providing students with enhanced global credentials. The quality of our education is further reinforced by recognitions from respected professional bodies such as ACCA, CIPR and the Institute of Hospitality, ensuring strong alignment with international academic and industry standards.

CORVINUS UNIVERSITY OF BUDAPEST

CORVINUS UNIVERSITY of BUDAPEST

About Us

Corvinus University of Budapest is a medium-sized institution, when measured on a European scale, with a focus on business, economic and social sciences. The University is one of Hungary's leading educational institutions in their fields. Moreover, it is more than that: a community that is good and worthwhile to belong to.

Building on our more than one hundred years of traditions, we are constantly developing. Together with our lecturers, researchers and colleagues, we work to make Corvinus one of the best universities in the world, and to educate the elite of societies and economies of the region here in Hungary. Our goal is that talented students do not have to choose a university abroad in order to acquire internationally recognised, competitive and marketable knowledge. Social and financial standing should not be an obstacle to learning: our well-performing students may study on the basis of excellence, free of charge.

Corvinus is the only in Hungary that has two international institutional accreditations: AMBA and AACSB.

HUNGARIAN DANCE UNIVERSITY

Hungarian Dance University

About Us

Founded in 1950 as the State Ballet Institute, the Hungarian Dance University is the leading institution for professional dance education in Hungary. Over the decades, it has continuously evolved in response to artistic and academic developments, becoming a university in 2017.
Our institution represents a unique model within European dance education, integrating comprehensive professional training with academic higher education. With a long-standing tradition of excellence, we combine rigorous artistic standards, performance experience, and theoretical knowledge within a structured educational framework.

Generations of outstanding dancers, choreographers, teachers, and rehearsal directors have graduated from our University, many of whom have built successful international careers. Today, the Hungarian Dance University remains committed to nurturing talent, fostering artistic innovation, and preserving the highest standards of dance education while responding to the evolving demands of the profession.

HUNGARIAN UNIVERSITY OF AGRICULTURE AND LIFE SCIENCES

MATE

About Us

The Hungarian University of Agriculture and Life Sciences (MATE) is one of Europe's largest and most comprehensive multidisciplinary higher education institutions focused on agricultural and life sciences. In the latest edition of QS World University Rankings by Subject in the field of Agriculture and Forestry, the university has achieved significant advancement, reaching the 97 range worldwide. This position reflects MATE's strengthening international presence and the growing impact of its research and education activities. This ranking evaluates universities based on recognised indicators, including research impact, the strength of international research network, academic and employer reputation.

Our degree programs are offered in a wide variety of subjects ranging from agricultural, environmental and food sciences, horticulture, viticulture, oenology, water and renewable energy management, landscape architecture and mechanical engineering to rural development, economics, social sciences, informatics, pedagogy and arts.

Through strong partnerships with industry, our university fosters an active research and innovation ecosystem where ideas turn into real-world solutions. MATE's long tradition of research and innovation lays the foundation for the high level of educational and institutional excellence. MATE understands the importance of internationalization and promotes a variety of international activities.

HUNGARIAN UNIVERSITY OF SPORTS SCIENCE

HUNGARIAN UNIVERSITY OF SPORTS SCIENCE
BUDAPEST

About Us

The Hungarian University of Sport Science (HUSS) and its institutional predecessors represent one of the oldest higher education establishments in Europe dedicated to body culture, including sports and physical education. Our university honours its rich traditions while evolving to meet the challenges of a modern, knowledge-based society and addressing diverse socio-economic demands.

HUSS remains committed to preserving its heritage while continuously adapting to contemporary needs. Its educational strategy ensures a seamless integration of theoretical and practical knowledge. To further equip students with competitive expertise, the university has increased the focus on sports training across all fields of study.

In developing its curriculum, the university actively engages with representatives from sports federations and educational institutions to align its programs with the practical demands of the workforce. This collaboration ensures that training programs are in harmony with labour market expectations.

The mission of HUSS is to educate specialists who, as future leaders, will possess both personal and professional excellence across various sectors of sport. The university places a strong emphasis on the development of human resources in the field, with a commitment to fostering the knowledge and skills that contribute to the physical and mental well-being of the Hungarian population.

FACULTIES, INSTITUTES, DOCTORATE SCHOOLS

Economics and Social Science Institute, Institute of Sports, Institute of Health Sciences and Sport Medicine, Institute of Teacher Training, Doctoral School of Sport Sciences

Academic life

Students have the opportunity to engage in 18 different sports on campus. The Hungarian Universities and Colleges Sports Association organizes a championship each semester, aimed at promoting various sports and identifying athletes for competitions organized by FISU (International University Sports Federation) and EUSA (European University Sports Association).

The International Relations Center supports students, faculty, and researchers in the areas of international mobility, training, academic collaborations, and scholarship programs. It plays a key role in driving the university's internationalization efforts, facilitating participation in global research and training projects that integrate theory with practical applications across borders.

Within the European higher education landscape, HUSS has distinguished itself by participating in numerous sports-related professional projects as a consortium partner. The university also actively organizes events such as the "Sport and Innovation Conference," along with various international webinars, held both online and in person.

JOHN VON NEUMANN UNIVERSITY

About Us

John von Neumann University (JvNU) is based in the town of Kecskemét, in the central part of Hungary. This well-connected location of the city offers excellent opportunities, especially in the areas of industry, logistics, agriculture, and commerce.

JvNU is one of the youngest tertiary educational institutions in Hungary. However, the university's legal predecessors have a history dating back more than 60 years and boast longstanding traditions. JvNU was officially granted the title of 'University of Applied Sciences' in 2016. The university places great emphasis on the practical training and market-driven approach, which is in line with the innovative and dynamic spirit of our namesake, the world-famous mathematician John von Neumann.

The university consists of three faculties: the GAMF Faculty of Engineering and Computer Science, the Faculty of Economics and Business, and the Faculty of Horticulture and Rural Development. The Faculties' diverse portfolio includes attractive and competitive programmes both in English and Hungarian language.

We are proudly announcing that JvNU is part of the EU4Dual consortium, which is a cross-border scientific alliance of 9 leading Dual-training role model universities in Europe. The participating institutions collaborate intensively launching joint courses, research projects and work-based learning activities aiming at establishing a multi-campus, multidisciplinary university committed to fostering close collaboration between academia and industry. Our University contributes to the cultural life of Kecskemét as well (e.g. Senior University, community outreach programs, open classes).

OBUDA UNIVERSITY

ÓBUDAI EGYETEM
OBUDA UNIVERSITY

About Us

Obuda University is one of Hungary's leading higher education institutions, offering outstanding and competitive education in a variety of fields such as economics, computer science, engineering, natural sciences, and pedagogy. The university provides undergraduate, master's, and doctoral programs in full-time, part-time, and correspondence formats. These include 20 bachelor's programs, 24 master's programs, and 5 doctoral programs. In addition, the university offers 5 higher education vocational training programs and a number of specialized education courses.

The university emphasizes practice-oriented education, offering dual and cooperative training formats among others. Along with theoretical foundations, students can also complete internships, ensuring they are well-prepared to enter the job market. Obuda University places significant importance on internationally recognized research and development, as well as innovation activities.

The university's researchers and faculty are committed to academic excellence, as reflected in their participation in prestigious international publications. The institution is proud of its distinguished alumnus, József Galamb, the creator of the Ford Model T. The university aims to continue its societal engagement in the future and contribute to the development of the region.

Academic life

Obuda University (OU) provides a dynamic academic environment for its 14,000 students, including over 1,000 international students from 99 countries. The university is an active participant in the global scientific and research community. It achieves outstanding results in areas such as artificial intelligence, robotics, medical systems, intelligent systems, critical infrastructure, security, and green technologies. The university has nearly 200 bilateral cooperation agreements and organizes around 15 international academic conferences annually. In addition to its three Science and Innovation Parks in Hungary, a Science Park is also under development in Uzbekistan. The EKIK Research Center is an important innovation hub that translates university ideas into practice, creating new jobs and helping to address societal challenges. Its main international research partners include institutions from Vietnam, Germany, Hong Kong, the UK, and Australia.

> **Obuda University has made remarkable strides in the global rankings, climbing over 400 positions in the 2025 Times Higher Education (THE) World University Rankings. This achievement places the university in the 601-800 range, securing the second-best position among the 11 Hungarian institutions evaluated. Since its first appearance in THE rankings in 2021, Obuda University has shown continuous improvement, moving from the 1001-1200 range in 2022 to its current standing.**

> **In addition to its overall improvement, Obuda University excels in specific fields, ranking in the 501-600 range in IT and 601-800 in engineering. This progress underscores Obuda University's growing global impact and its commitment to providing quality education and research opportunities.**

SEMMELWEIS UNIVERSITY

SEMMELWEIS
UNIVERSITY 1769

About Us

Semmelweis University is a leading institution of higher education in Hungary and the Central European region within the area of medicine and health sciences. Its main commitment is based on the integrity of education, research and healing, which make Semmelweis University an internationally renowned centre of knowledge.

Programmes are offered in three languages (Hungarian, English, German), and international students account for a third of the around 16,000 students of the university.

Semmelweis University is the largest provider of health care services in Hungary. Practical teaching takes place at the university's clinics and hospitals, where the highest quality patient care services are provided.

The targets of research at the university are early diagnostics and therapy, disease prevention and active ageing. Currently, there are 300+ research groups at the university including 21 international and 200+ Hungarian research grants. Semmelweis University has received the prestigious Research University title twice.

The university organizes international conferences and is represented on numerous international scientific boards. Its academic reputation is well-regarded around the world.

Year of **1769** foundation

Number of **6 000** international students

Academic information

TYPES OF TRAINING

Single Cycle Degree Programme (Medicine, Dentistry, Pharmaceutical Sciences), BSc, MSc, PhD

OUTSTANDING COURSES

Outstanding educational program (undergraduate): Medical Education Program in three languages: Hungarian, German and English; PhD programs in Translational Medicine.
Fields of scientific excellence: cardiovascular, endocrinology, pharmacology, neurosciences, molecular biology

FACULTIES, INSTITUTES, DOCTORATE SCHOOLS

- Faculty of Medicine
- Faculty of Dentistry
- Faculty of Pharmaceutical Sciences
- Faculty of Health Sciences
- Faculty of Health and Public Administration
- András Pető Faculty (conductive education)
- Doctoral College (Cardiovascular Medicine, Clinical Translational Medicine, Conservative Medicine, Data Science, Dental Research, Health Sciences, Mental Health Sciences, Molecular Medicine, Neurosciences, Pathological and Oncological Sciences, Pharmaceutical Scienes and Health Technologies, Surgical Medicine, and Theoretical and Translational Medicine)

Academic life

Semmelweis University offers educational programs on six international campuses: Asklepios Campus Hamburg and Westpfalz-Klinikum (general medicine), Lugano (health sciences), Bratislava (health services management), Subotice and Ilieni (conductor programs). It is a consortium member of the HCEMM (Hungarian Excellence of Molecular Medicine) EU project in partnership with EMBL (European Molecular Biology Laboratory). Semmelweis University is a member of several international university networks, including EUniWell (European University for Well-Being), CELSA, Alliance4Life, EUROLIFE; member of Network Medicine Alliance, and EIT Health.

SZÉCHENYI ISTVÁN UNIVERSITY

About Us

Széchenyi István University (SZE) in Győr is a rapidly growing institution with over 17,000 students and 1,800 teaching, research and administration staff. Known for its international reach, SZE hosts more than 1,000 students from 89 countries and offers a diverse range of programmes across 9 Faculties and 4 Doctoral Schools.

With over 270 programmes in Engineering, Business, Informatics, Agriculture, Social Sciences, Pedagogy, Sport, and Arts, SZE offers more than 50 English-taught programmes, including an AACSB-accredited MBA, 5 double degree programmes with partners from the US, China, Italy, Portugal, and India, along with micro credentials such as Short Study Programmes and the Audi Development Camp.

SZE's major strength is in automotive engineering, highlighted by the Audi Hungaria Faculty of Engineering. We recently launched the Motorsport Engineering Master's heralded by Formula 1 professionals. We also offer an Aviation Postgraduate Programme as well as programmes in Health Sciences, such as Nursing and Health Psychology.

In Győr, the Science and Innovation Park fosters collaboration with industry, offering cutting-edge research facilities. Currently under construction is a Med Tech Campus working with MIT's Catalyst programme to focus on minimally invasive surgeries and digital dentistry.

The Mosonmagyaróvár Campus is home to the Faculty of Agricultural and Food Sciences, featuring a Smart Farm and, in Zalaegerszeg, ZalaZONE, SZE's complex and integrated R&D facility enables real-word testing of autonomous and electric vehicles.

University of Debrecen

About Us

The University of Debrecen, with a history spanning over 450 years, is Hungary's oldest higher education institution that has operated continuously in the same city. As one of the largest educational centers in the country, it plays a pivotal role in Hungarian higher education.

Renowned for its outstanding educational, research, and innovation capacities, the university holds an impressive position in international comparisons. It is a key contributor to the realization of national strategic objectives and consistently ranks among the top 500 universities worldwide.

Its vibrant student community of 32,000 has access to 13 faculties, all of which uphold excellent scholarly standards.

As a leading university, the University of Debrecen is recognized in Hungary as an intellectual hub offering the broadest spectrum of educational programs. It maintains close collaborations with the private sector, the business community, and local government authorities.

The University of Debrecen has been an outstanding partner to the city of Debrecen from the very beginning, serving as one of the primary driving forces behind the city's development.

In addition to excelling in its core functions and duties at the highest standards of quality, the university is committed to actively contributing to the economic growth of the Northern Great Plain Region. It also serves as a key innovation partner for regional companies, particularly in the fields of healthcare, biotechnology, agriculture, and technology.

Academic information

TYPES OF TRAINING

The University of Debrecen offer 78 Bachelor's programs, 94 Master's programs, 6 undivided, one-tier programs, 286 postgraduate specialist courses, 7 higher level vocational training programs, 80 English-language programs.

OUTSTANDING COURSES

Programs and courses are offered in the fields of Law, Medical and Health Sciences, Humanities and Education, Business, Informatics, Agriculture, Engineering, Natural Sciences, and Music.

FACULTIES, INSTITUTES, DOCTORATE SCHOOLS

More than 2,000 faculty members engage in education, research, and development across 13 faculties, 8 campuses, and 24 doctoral schools. Academic performance and personal growth are further supported by colleges for advanced studies, scholarly student circles, and talent management programs.

Year of **1538** foundation

Number of **34 000** students

Number of **7 700** international students

Academic life

The University of Debrecen prioritizes several key focus areas, including the health industry, pharmaceutical industry, medical instrument production, agriculture and food industry, sports and healthcare. Additionally, it emphasizes supporting fields such as informatics, economics, and technical sciences, which serve these sectors horizontally.

UNIVERSITY OF DUNAÚJVÁROS

DUNAÚJVÁROSI EGYETEM
UNIVERSITY OF DUNAÚJVÁROS

About Us

One of the main goals of the University of Dunaújváros is to become a highly regarded university providing professional knowledge in the field of engineering and IT disciplines, and the related research, both nationally and internationally. Preserving our position in the fields of economic sciencies, social sciences and teacher training is at least as important. There are currently 8 BSc/BA courses, 5 higher edication vocational courses, 2 master courses and 21 further specialized courses.

International students can choose from 6 BSc/BA courses and two master courses in English. We have students from more than 40 countries. We participate in the Stipendium Hungaricum Scholarship Program as a host university, and the number of our scholarship holders increases every year.

Due to the transition to a foundation-based governance model, new doors have opened for our university. In the recent years, the institution has entered into cooperation agreements with numerous companies, and the university has also become a prominent player in the Paks nuclear power plant investment.

At the same time as the transition to the foundation-based model, the integration of Bánki Donát Technical Secondary School into our institution was also completed. This change creates great opportunities for young people in the high school, as we can offer them a special professional career path and provide special support to their further studies at the university.

Our goal is to foster cooperation between vocational education, higher education and adult education.

Academic information

TYPES OF TRAINING

English-taught bachelor courses (BSc, BA), English-taught master courses (MSc, MA), Preparatory Year Program

UNIVERSITAS MISKOLCINENSIS

About Us

A unique, spacious, green campus, home of more than 12000 students, 8 faculties in a beautiful natural environment, up-to-date laboratories, lecture halls, dormitories and facilities for sport, culture and entertainment – this is the University of Miskolc.

Its traditions (founded in 1735) combined with novel directions in research and education result not only in a large number of professional awards, but also in an increasing interest of foreign and Hungarian students who pursue studies at the highest academic level in our institution. The faculties and research institutes with their well-equipped labs actively participate in research and educational projects and programmes and carry out research for the industry at regional, national and international level.

Miskolc with its more than 150 thousand inhabitants is a traditional industrial city, the cultural and economic centre of the North Hungarian Region. The University of Miskolc welcomes all purposeful and motivated students who aim to study in a traditional still modern and fresh academic environment in the fields of mechanical engineering, materials and earth science engineering, informatics, economics, arts, law, health care and music.

UNIVERSITY OF NYÍREGYHÁZA

UNIVERSITY OF NYÍREGYHÁZA
· 1914 ·

About Us

The University of Nyíregyháza is one of the most distinguished institutions of higher education in the field of applied sciences in the country. It offers a unique combination of academic excellence, high-quality education, personal attention, and an excellent infrastructure.

The history of teacher training at this institution can be traced back to 1914. The history of agricultural and technical education in the region can be dated back to the 1930s. The College of Nyíregyháza was established in 2000 through the merger of the Bessenyei György Teacher Training College and the Faculty of Agriculture of the Gödöllő University of Agricultural Sciences. This followed an internal structural transformation, and the institution has been operating as the University of Nyíregyháza since 1 January 2016.

The University of Nyíregyháza has a distinctive educational and research profile, with the mission of providing academic research and the transfer of knowledge. The university is situated in a green belt within the city limits, adjacent to the picturesque and tourist-oriented area of Sóstó. The campus serves as a self-contained urban environment, offering a comprehensive range of facilities designed to meet the recreational and cultural needs of its student population.

UNIVERSITY OF PANNONIA

Pannon Egyetem
University of Pannonia

About Us

Located in the scenic towns of the former Roman province of Pannonia, the University of Pannonia is based in Veszprém, the capital of Bakony Hill. Recognized for its exceptional academic achievements and marketable knowledge, our institution is a leader in research and development output per lecturer in Hungary. Notably, several of our researchers have made it onto the prestigious Stanford University list, which ranks the top 2% of scientists globally based on citation impact, showcasing our significant contributions to international research.

Our university comprises five faculties that offer a variety of programs tailored to meet modern labor market demands. We proudly provide IChemE-accredited chemical engineering programs that adhere to the highest global standards. We are also working toward AACSB accreditation, enhancing our reputation in business and economics. As a multi-disciplinary institution, the University of Pannonia delivers cutting-edge knowledge across fields, emphasizing competencies in Low-waste technologies, Green Fuels, Bio- and Nanotechnology, Artificial Intelligence, and more. We are committed to Innovative Course Development in Social Sciences, equipping students for academic and real-world challenges.

Beyond academics, we play a vital role in economic and socio-cultural development, fostering collaboration across competitive sectors, businesses, and governments in regional and cross-border initiatives. Our dedication to sustainability aligns with several UN ESG goals, contributing to clean water, sustainable cities, and climate action. The expertise of our instructors and the acclaimed results of our research programs position us among Hungary's elite institutions, embodying a commitment to academic rigor and real-world impact.

UNIVERSITY OF PÉCS

About Us

The creation of the University of Pécs was first initiated by King Louis the Great in 1367. Today, the University of Pécs is one of the most prestigious institutions in the country, where there are ten faculties, which cover the full spectrum of higher education to provide high quality, comprehensive training.

We have and will put great emphasis on the quality of education, as well-prepared students mean the best publicity for us. In this spirit the continuous development of human resources and infrastructure conditions is our top priority. We make efforts to provide our students with a wide variety of knowledge, therefore we offer support for a significant proportion of our students to participate in a variety of internship and exchange programmes in recognized institutions of Europe and other countries.

Pécs is an attractive, friendly little town and human in scale; not only does it host, but also serves like home for our university citizens. The University is the city's dominant institution, besides the students almost all inhabitants of Pécs feel connected to it. The presence of the large number of international students from all over the world and the Mediterranean atmosphere makes Pécs a pleasant, busy university town with so much life.

UNIVERSITY OF SOPRON

UNIVERSITY of SOPRON

About Us

Located in the 'Town of Loyalty' of Hungary, the University of Sopron provides excellent education at four faculties specialising in economics, forestry, wood technology and pedagogy. Its goal is to train intelligent and creative future professionals who are mindful of the principles of sustainability in their professional and personal lives.

The university operates in the form of a foundation, which allows the students to expand their opportunities to acquire state-of-the-art knowledge of their future professions from the point of view of practical life. The university community respects the memory of its predecessors dating back to the 18th century but uses modern tools and methods to meet the challenges and expectations of the 21st century.

SZTE
UNIVERSITY OF SZEGED

About Us

The University of Szeged (SZTE), with a history dating back to 1581, is located in the sunniest city of Hungary, Europe, attracting thousands of young people due to its lively, urban lifestyle and colourful festivals.

The University of Szeged consistently holds excellent positions in global, subject-specific, and sustainability rankings. In 2025, according to ARWU (Shanghai Ranking), the University of Szeged qualified as the best university in Hungary and was ranked 401-500 globally. It holds dual accreditation as an Entrepreneurial and Engaged University (ACEEU), and received a QS Commitment to Sustainability award in 2024. SZTE is one of the largest universities in Hungary, and the efforts of its 24,000 students and 9,000+ employees at the 12 Faculties help make the institution the regional centre of knowledge in Hungary and Central Europe.

Outstanding professors have worked at SZTE, including the Nobel Prize laureates Albert Szent-Györgyi (1937), who was the first to isolate Vitamin C, and Katalin Karikó (2023), one of the founders of the exceptional mRNA-based vaccine technology.

The number of the international students is constantly increasing, and it reaches nearly 20% of the student body. SZTE strives to prepare its students for the demands of the labour market. Besides factual and practical knowledge, special focus is put also on the development of skills needed to adapt to an ever-changing world. The 10:1 student-faculty ratio is a key to success in obtaining valuable knowledge and academic qualifications, and it is an essential task to help our students apply their knowledge in the most effective way.

UNIVERSITY OF THEATRE AND FILM ARTS

UNIVERSITY OF THEATRE AND FILM ARTS

About Us

The University of Theatre and Film Arts is committed to the spirit of our country's Fundamental Law and the original intentions of the Founding Fathers of the European Union along with its activities based on academic research, teaching and the freedom of studying. Together, as citizens of the University, we seek contemporary theatrical and cinematic expressions of this cultural ideal. We believe that in our colourful world, our existence becomes truly visible when we add our own colours and shades to the overall picture. We consider the artistic career to be a difficult but rewarding profession, and above all, a privileged gift that we wish to place at the service of the community that honours us with its attention.

UNIVERSITY OF TOKAJ

1857 · UNIVERSITY OF TOKAJ · 2021

About Us

The Reformed College of Sárospatak, founded in 1531, has produced numerous scientists, writers, artists, and statesmen throughout its nearly five hundred years of history. The institution has long provided education in theology, humanities, and law, along with basic and intermediate level teaching in primary and secondary schools. Over the centuries, it also offered village seminars, community college programs, and specialized training in horticulture and wine-making.

As the legal successor to the Sárospatak Teacher Training College, historically founded in 1857, the University of Tokaj became independent on August 1, 2021. The University is committed to reviving the spiritual, religious, cultural, historical, and economic significance of the Tokaj-Hegyalja region, building on the cultural heritage of past centuries. Its goal is to enhance educational standards and contribute to the region's cultural, scientific, touristic, and economic development.

The University invites current and future students to pursue studies in pedagogy, viticulture, oenology, tourism, economics, and cultural heritage. The institution's educational and research focus is deeply rooted in the Tokaj Wine Region's culture and heritage. It aims to contribute to Hungarian higher education and extend its influence throughout the Carpathian Basin and beyond, offering high-quality education and research.

UNIVERSITY OF VETERINARY MEDICINE BUDAPEST

UNIVERSITAS SCIENTIARUM VETERINARIARUM BUDAPESTINENSIS 1787

About Us

In 1787, a "Chair for Animal Healing" was established at the Faculty of Medicine in Pest to provide medical students with basic knowledge of animal diseases. As horse and cattle breeding expanded on the Hungarian plains in the early 19th century, the Chair became independent from the Medical Faculty in 1851, forming the Royal Institute of Veterinary Medicine. By 1899, it had achieved Royal College status, allowing it to issue D.V.M. diplomas, and earned an international reputation in the first half of the 20th century.

In 1960, the school gained the status of an independent university, further cementing its role as a leading institution in veterinary education. However, in 2000, as part of a nationwide reorganization of higher education, it became the Faculty of Veterinary Science within the newly established Szent István University.

: In 2016, the institution regained its independence, once again becoming the University of Veterinary Medicine, Budapest. Since 2020 the university operates as a model-changing university, with its programs continually accredited by the Hungarian Accreditation Board.

ANDRÁSSY UNIVERSITÄT BUDAPEST

About Us

Andrássy University Budapest (AUB) is the only higher education institution outside the German-speaking world that offers courses entirely in German. AUB was founded in 2001 as a multinational higher education project with a view to the enlargement of the European Union.

AUB is a Hungarian but also international university. Interdisciplinarity is an integral part of AUB's mission statement and is embedded in the curriculum and also ensured by the interdisciplinary nature of the study programs and research projects. Education focuses on Europe and European integration.

Due to its geographical location, AUB specializes in interdisciplinary research on Central and Eastern European countries and the Danube region, with a particular focus on political, economic, legal, historical, and cultural issues in the region and their impact on European Integration. AUB students not only gain expertise in analyzing various aspects of European integration, but also experience European diversity in practice through small international study groups. Furthermore, the university's and doctoral school's quality assurance system has been accredited by the independent German accreditation agency evalag (Mannheim) in accordance with ESG standards.

Academic information

TYPES OF TRAINING

BA, LLM, MA, MSc, PhD

OUTSTANDING COURSES

International Relations (BA and MA), Central European Studies - Cultural Diplomacy (MA), International Economy and Business (MSc), European and International Administration (MA), Comparative Law (LLM)

DOCTORAL SCHOOL

Interdisciplinary Doctoral School (Law, Economics, Political Science, History), Centre for Diplomacy (Political Science), Centre for Democracy Studies (Political Science), Research Centre for Law and Economics (Law, Economics), Centre for Central European Studies (History)

Year of **2001** foundation

Number of **283** students

Number of **211** international students

Academic life

AUB cooperates with 72 universities and research institutions. Students also have the opportunity to join one of the university's double degree programmes, which offer the opportunity to acquire degrees of the two universities simultaneously through an integrated study programme. The AUB has double degree programmes with the Universities of Bamberg, Dresden, Passau and Wuppertal. PhD students also have the opportunity to participate in cotutelle programmes with the Universities of Passau and Hildesheim.

SCHOLARSHIPS

https://studienstart.eu/stipendien

Students at the AUB not only gain proficiency in analysing various aspects of European integration, but they also experience European diversity in practice in small international study groups.

The AUB received the "University of National Excellence" award in Hungary.

In addition to the accreditations in Hungary (MAB), the quality management system of the university as well as the doctoral school are also accredited by the independent German evaluation agency evalag (Mannheim).

BUDAPEST CIRCUS ART AND CONTEMPORARY DANCE COLLEGE

About Us

The Budapest Circus Arts and Contemporary Dance College is dedicated to learning, teaching, researching, and developing time- and movement-based performing arts. We aim to discover and support talent, training performing artists and educators whose degrees reflect global standards of practical and theoretical knowledge.

Our mission is to use arts education to bring core cultural and social values to life, both nationally and internationally. With the launch of circus arts courses, we continue our pioneering work in performing arts, collaborating with the National Centre for Circus Arts to develop higher education in circus genres in Hungary. We aim to train performers with cutting-edge skills and creativity.

With 40 years of experience in contemporary dance and dance teacher training, we uphold values essential in the circus arts world. Our courses focus on researching and developing circus arts, creating a community of teachers, students, and artists to elevate circus arts to a higher level.

Our students learn from both Hungarian and international professionals, gaining transferable knowledge in a creative community. All courses are recognized in the European Higher Education Area, and as a member of the Erasmus+ program, we offer students opportunities to gain international experience.

BUDAPEST METROPOLITAN UNIVERSITY

About Us

Budapest Metropolitan University is the largest private university in Hungary, offering programs across two faculties and four main fields: communication, business, tourism, and art. Since its foundation in 2001, the University has become a prominent and dynamically developing institution in Hungarian and Central European higher education.

In 2020, METU introduced the concept of the University of Creative Industries, reflecting its unique, portfolio-based educational approach, its professional mission, and its distinctive learning environment.

With the implementation of the myBRAND educational method, METU was the first in Hungary to align with international trends by adopting a portfolio-based approach to education.

Education at METU is based on continuously updated methodologies, supported by instructors with international experience, and delivered in an inspiring and innovative environment. This approach prepares students to successfully adapt to the ever-changing labour market both in Hungary and internationally.

Academic information

BUDAPEST UNIVERSITY OF TECHNOLOGY AND ECONOMICS

MŰEGYETEM 1782

About Us

The university was founded in 1782 (under the name Institutum Geometrico-Hydrotechnicum). BME is the institution that defined the history of the 20th century in 1956, and which has been offering outstanding professional knowledge and extraordinary technical solutions to respond to various challenges.

At the university's 8 faculties and 76 departments, 1,200 lecturers teach 5,000 subjects and 10,000 courses each semester. Professionals graduating from BME have a strong theoretical and scientific background and, equipped with relevant economic and domain-based competencies, they also have the capacity to apply holistic approaches in understanding various processes.

BME is also unique in its quest to offer a synergy between various faculties and help future managers, economic and social science specialists preparing for their careers in a wholly cooperative environment. BME's menu of training programmes is constantly expanding, partly by relying on the needs signalled by the market and the industries and also by keeping abreast of the latest trends in technology.

Center for University-Industry Cooperation (FIEK) plays an instrumental role in innovation-related activities. Being Hungary's number one institution is also justified by its prestigious position in the Hungarian higher education rankings, the average score of those admitted to the university, the number of applicants holding language exams, and the number of teachers with a PhD.

GÁBOR DÉNES EGYETEM

About Us

Our Institute, GDF, which has a history of nearly three decades and is the first to introduce the form of distance education in Hungarian higher education, is one of the main values of creativity, cooperation, value-centredness, environmental awareness and practice orientation.The mission of our College is to provide high-quality educational training which satisfies the requirements of the labour market and meets the challenges of both Hungary and the world. People who apply to our institution are devoted to the much sought-after fields of engineering and economics. They are keen to work in the theoretical and practical fields of economics, computing and information technology.

Apart from up-to-date theoretical basics and practical courses, our students are instructed in fundamental professional areas as well. This way students can effectively prepare for a successful entry into the labour market and for gaining further degrees e.g. MSc/MA. In the first 30 years of our College, tens of thousands of students have started their information technology studies. More than 15,000 of those students have graduated and have begun work as successful professionals in various fields of computing.

About Us

Edutus University has been operating since 2011 when the College for Modern Business Studies, seated in Tatabánya since its establishment in 1992, and Harsányi János College, founded in Budapest in 2003, merged. We were awarded the applied university status in 2018 and have since been renamed Edutus University.

The international relations of the University went through a significant development advancing the cooperation agreements of its two predecessors. By now we have got an effective Erasmus training agreement in almost all member states of the European Union.

Our institution functions within the framework of the higher education standards created by the Bologna Accords and provides bachelor's and master's degree qualifications according to the European Credit Transfer and Accumulation System (ECTS).

The available trainings are the following: Business Administration and Management (BSc), Trade and Marketing (BSc), International Business Administration (BSc), Tourism and Catering (BSc), Technical Management and Mechatronics Engineering (BSc) and Marketing (MSc). Some years ago we launched the full time English taught Business Administration and Management BSc and the Marketing MSc training programmes where there are 110 international students together with the Erasmus incoming ones.

INTERNATIONAL BUSINESS SCHOOL

IBS INTERNATIONAL BUSINESS SCHOOL

About Us

In cooperation with its strategic partner, The University of Buckingham, IBS produces flexible, motivated business people who perform efficiently and think flexibly in the challenging environment of global business. IBS attracts students from over 100 countries on 5 continents and therefore offers a truly international campus for students seeking a global experience.
The curriculum is practice-based and delivery is only in small groups which makes IBS an ideal learning place for those who aim for a more personalised higher education experience.

Besides the popular Hungarian and British bachelor's and master's programmes, IBS now offers high level MBA and PhD programmes that attract professionals from all over the world. Its University Foundation programme is a meeting point for English learners who wish to improve their skills with 12 hours of English per week.

KODOLÁNYI JÁNOS UNIVERSITY

KODOLÁNYI UNIVERSITY

About Us

Kodolányi János University (KJU) is a state-accredited, non-profit private institution offering undergraduate, graduate, and post-graduate programs, as well as conducting applied research in fields such as computer science and engineering, tourism and hospitality, business administration and management, media and communication studies, social sciences, history, performing arts, and cultural and language studies.

In addition to its academic offerings, KJU provides a wide range of post-secondary and lifelong learning (LLP) courses for both trainers and trainees.

KJU's a pioneer in Hungary in the development of online education across all levels, in compliance with EU standards, and supported by specialist applied research.

The university's programs benefit from the expertise of highly qualified faculty members, professional instructors, and guest lecturers from both industry and international partner institutions. KU's mission is to offer both disciplinary and interdisciplinary studies, research, and innovation services that address the needs of the new knowledge economy and supports sustainable development in the areas of management, business services, social sciences, humanities, and performing arts.

TOMORI PÁL COLLEGE

About Us

Tomori Pál College is a private higher educational institution which was founded in Hungary in 2004. The College has the major goal of providing high quality study opportunities to people who wish to continue their studies in higher education from all over the world. Licenced by the State of Hungary, the College is operating under the framework of the quality assurance system ISO 9001 and degrees issued by the College are recognized and accepted across the whole European Union. Most of our teaching activities are concentrated in the capital city – in Budapest – but we have affiliates in another provincial city called Kecskemét. Our institution is nicely set in a large park in Budapest and it is marked with a family-like and student-oriented atmosphere.

WEKERLE INTERNATIONAL UNIVERSITY

WEKERLE INTERNATIONAL UNIVERSITY

About Us

Wekerle International University – as a prestigious educational institution – considers its mission to provide outstanding education within the Bologna system. Its aim is to create conditions for education that enhance the students' academic and personal development by uniting high-level academic knowledge with practical education, based on corporate partnerships from outside the institution. In this globalized world only by having a highly professional and open-minded education that incorporates a strong sense of ethics and responsibilities can one remain competitive. A WIU education while successfully integrating various cultures enables its students to rise to new challenges anywhere in the world, thus helping them to fulfil their true potential.

WIU considers it a number one priority that the students and staff, regardless of age or background, ethnical or otherwise, are encouraged to embark upon a voyage of lifelong learning and self development through study, research and academic endeavour. This will lead to an improvement in the quality of life while contributing to the training of a more flexible and better prepared labour force.

It is our firm conviction that the structure of our programmes should be practice-oriented, and based on work experience, as well as carefully designed case studies, that reflect market realities.

CLOSING REMARKS

As we conclude this publication, we extend our heartfelt thanks to the member institutions of the Hungarian Rectors' Conference (HRC) for their invaluable cooperation in creating this directory. This publication provides just a glimpse into the immense potential and the many talents of each institution, highlighting the rich academic and cultural fabric of Hungary's higher education landscape.

We hope this directory serves as a valuable resource for those seeking to understand the depth and diversity of Hungarian higher education. The HRC remains committed to supporting our member institutions and is always more than happy to offer its insight and guidance on any matters related to our members and the broader Hungarian higher education area.

Thank you for your continued support and engagement, and we look forward to fostering further collaboration and shared success within our vibrant academic community.
